

FAXTELLERPLUS™

a new way to deposit checks
and improve cash flow

You can continue to accept your customer's check payments as usual. Just change the way you deposit your checks. EFT Network's FAXTellerPLUS is a brand new way for businesses to participate in Remote Deposit Capture by using a standard fax machine with absolutely no hardware equipment or software to purchase or download.

FAXTellerPLUS is ideal for businesses with low check volume (30 checks per day or less), businesses that do not have access to the internet, want to eliminate the need for a PC or do not want to have to perform the functions associated with more traditional Remote Deposit Capture systems. There is no equipment to install. All you need is access to a fax machine to deposit checks with a depository bank.

Merchant Benefits:

- No equipment to purchase
- Reduce bank fees and transportation costs
- Ease and Convenience
- Faster funds availability

absolutely **no equipment**
or software to **purchase**
or **download!**

Just Fax!

No Equipment

All you need is a fax machine, check carriers and our dedicated fax number.

Eliminate Expensive Scanners

No expensive scanners to purchase or lease.

Secure Check Transmission

The check carrier contain unique identifiers with both depositor and the depository bank information.

Reduce Bank Visits

Save unnecessary trips to the bank for daily deposits.

Electronic Deposits

Improves cash flow and simplifies deposits for faster funds availability.

View Deposits

24/7 access to view all check images and reports on your deposits by fax, email or online.

Using FAXTellerPLUS is easy.

EFT Network specially designed transparent check carriers that hold up to three checks and includes unique identifiers.

The identifiers can be customized to include your store number, bank routing and account number. If

you have different accounts to deposit to, EFT Network can provide you with multiple carriers for different accounts. The check carriers must be used and both sides of the checks need to be faxed to EFT Network's dedicated fax number for successful transmissions.

FAXTellerPLUS is safe.

FAXTellerPLUS is safe and legal. Our processing facility and our web-accessible servers meet and exceed all current security procedures and safeguards. Checks are processed to EFT Network and transmitted through the ACH. Check images are transmitted to your bank for deposits into your bank account.

Faster access to cash and fewer trips to the bank.

You should know your bank - but you can certainly cut down on your visits. We know that you need to work as efficiently as possible, and driving to the bank to make deposits can get very

1 Place checks appropriately in the check carrier and access a fax machine.

2 Dial EFT Network's dedicated fax number or program it into your fax machine.

3 Fax both sides of the check, front and back, then press send.

4 You will receive a confirmation fax or email each day with your deposit total.

expensive and just isn't a productive use of time. That's why we recommend our new cost savings service, FAXTellerPLUS to deposit checks conveniently at your place of business. It's easy, secure and efficient.
